Through the looking glass

By ALICE

Hope you're feeling better, Maureen Barbour-Smallocombe of Monaca, formerly of Jermy, a patient at Carbondale General ... Ditto to Donna Bruso, R.D. Jermy, who had surgery at the Mid-Valley ... Johanna (Joanne) Langman, Jermy, beautiful, recently completed a five-day seminar at Rock Haven State College, offered by the Pennsylvania Hairdressers Association, looking up all the new trends in hairstyling for the fall and winter ... Sorry we missed the Royal Wedding window display put together by Cathy's girls at the Nettie Wabbel Shopper on North Church, surely would have done a feature story on it, old chap ... Thanks to Dorothy Ann Martin of Jermy for the thank you ... I wasn't nervous a tall ... Good luck and best wishes to John Lawler, Jr., Roger St., now in basic training with the National Guard in Georgia ... Sorry to hear Jerry Paul, Scranton Times-Valley bureau chief, has been ailing ... Tall, dark and handsome Ron Griffiths visiting his folks in Jermy from his new place in Virginia, where he's working in the electronics field. Ron's a graduate of Williamsport Technical Institute ... The grapevine has it that Mary Hockaday Armour and young son are on an extended visit with her dad, Hank, Lincoln Avenue in Jermy ... while hubby Jim is on a tour of duty in the service.

Buckets of good wishes and luck in his college career to Mason East, former Coal Company Theatre STAR, who departs Aug. 26 for Indiana College and the BIG TIME! ... Retired airline pilot Jack Race, Crystal Lake, was the featured speaker at a recent

service at St. James Episcopal (summer) Church, Dundaff ... Roger Hayden provided the music and Myron Kenny Booth read the service. Sorry we missed it ... Jack was undoubtedly one of our most interesting interviewees. (The other was John Malone) ex-FBI officer, Roger, by the by, tuned our piano recently, (while we were out) and when he presented us with the bill, he said casually, "Oh, your paper boy was here and I paid him!" He plays grand piano, too ... It really wiped us out to hear Paul Cerra had divorced Coal Company Theatre, tied to reach him, but to no avail. What a talented group he had, and how hard he worked! (We they?) of many, many happy hours across the footlights reviewing C.C.T. productions, and with well to the new thespian group now forming in Carbondale.

Thanks to Joe Flannery of the Scranton Times, and to Ray Kinadi of the Upvalley Scranton Tribune office, for "them kind words" re: the opening of the MIRROR ... Lakeland's 1982 Yearbook ought to be bright & beautiful, if senior Bucky Webb, R.D. Jermy, is any barometer ... her senior project is GORE-JAY ... Harry is a girl, Joanne Bishop (Earl's wife, of Jermy) is a surgical patient at St. Joseph's ... Julia Lloyd, doctor of Father John and Pauline Lloyd, of St. James, Jermy, due to matriculate at Trinity College, Hartford, Conn, this fall ... Ann Ann, John Eagan of Jermy is a neighbor we don't see much of ... we used to see her under the dryer quite frequently ... and it was always a joy, and so to her and her family, deepest sympathies on the death of her father, Arthur Williams ...

Deepest sympathies are extended to Mrs. Mary Muehlen, Sickler's Pond, formerly of Jermy, whose sister, Josephine Roberts, of Scranton, died last week. This is the

Reviewing bids

Bids for the reconstruction of Gordon Avenue in Carbondale are now under review by the Pennsylvania Department of Transportation's (PennDOT) solicitor in Harrisburg.

Joseph Kohut, city community development director, told the Mirror that the bids were opened Thursday, Aug. 13, in PennDOT's Harrisburg office.

The project is being funded by the community development office.

Last Monday night Carbondale city council approved a transfer of community development funds from home rehabilitation to site improvements.

Martin P. Judge, city managing director, told the Mirror that such a transfer allows the city to go ahead with plans to construct new curbs and sidewalks in the block of South Main Street between Sixth Avenue and Seventh Avenue.

COG savings
By cooperating with the area's council of governments (COG), the City of Carbondale realized a savings of \$1.17 a ton when it bought rock last year.

This year the city administration won council approval to go ahead and again cooperate with the COG.

Managing Director Judge told the Mirror that because the savings were so great last

year the city, this year, will forego the expense of seeking rock bids on its own.

Replacing sewer lines
This summer the city's street department crews have been replacing sewer lines.

Because of the new way of charging the gasoline tax, the city could come up with nearly double its usual annual allotment under the Liquid Fuels Program.

This meant, Judge said, that the city should receive more than \$100,000 in its allocation.
